PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Developer with strong foundations in Java, Web Development, Database Management, and Front-End Technologies. Skilled in designing responsive applications, developing interactive user interfaces, and implementing efficient database solutions. Experienced in building end-to-end web projects utilizing modern development practices and AI-assisted productivity tools. Passionate about problem-solving, software engineering, continuous learning, and delivering user-focused digital solutions.

TECHNICAL SKILLS

- Core Java
- JavaScript
- HTML5
- CSS3
- Responsive Web Design
- AI Tools
- MySQL
- Database Design
- GitHub

PROJECTS

Responsive Portfolio Website

Technologies: HTML5, CSS3, JavaScript

- Developed a fully responsive portfolio website supporting mobile, tablet, and desktop devices.
- Designed and implemented more than 10 interactive UI components to enhance user engagement.
- Optimized page structure and styling, improving responsiveness across multiple screen resolutions.
- Integrated project showcase and contact sections to improve accessibility and navigation.

Driver Booking Management System

Technologies: HTML5, CSS3, JavaScript

- Built a web-based driver booking platform enabling users to submit booking requests through an intuitive interface.
- Designed dynamic booking forms and driver selection workflows for streamlined user interaction.
- Developed responsive front-end components ensuring accessibility across multiple devices.
- Implemented structured user input validation to improve booking accuracy.
- Enhanced overall usability through interactive navigation and optimized UI design.

TECHNICAL EXPERTISE

Core Java

- Applied Object-Oriented Programming concepts including Encapsulation, Inheritance, Polymorphism, and Abstraction.
- Utilized Collections Framework components such as List, Set, and Map for efficient data handling.

HTML & CSS

- Created responsive web pages using semantic HTML elements.
- Developed visually appealing layouts utilizing modern CSS styling techniques.

JavaScript

- Built dynamic web functionalities using event handling and DOM manipulation.
- Enhanced user experience through interactive front-end features and real-time page updates.

MySQL

- Designed relational database structures.
- Executed CRUD operations, including Insert, Update, Delete, and Retrieve functionalities.

EDUCATION

Bachelor of Science (B.Sc.)

St. Thomas College of Arts and Science, Chennai

May 2025

Higher Secondary Certificate (HSC)

Madras Christian College Higher Secondary School, Chennai

March 2022

ACHIEVEMENTS

- Successfully developed and deployed multiple web-based academic projects.
- Demonstrated proficiency in Java programming and front-end development technologies.
- Applied AI-assisted development practices to improve coding efficiency and learning outcomes.
- Continuously enhanced technical capabilities through practical project implementation.

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Communication
- Adaptability
- Time Management
- Attention to Detail
- Continuous Learning

LANGUAGES

English, Tamil
